Presentation of the Award

Ms. Dayana Ramirez Gutierrez

Stakeholder Knowledge Mapping (SKM): comprehensive review of the concept and application for stakeholder participation

Champagne Reception

The SRM Award has been issued by the Audi Foundation for Environment in 2010 for promoting great achievements in the field of sustainable resource management.

It honors graduates in the Master's program "Sustainable Resource Management" of Technische Universität München (TUM) with great achievements in their Master's Thesis.

The prize – endowed with 1.500 Euro – was awarded to SRM graduates in 2011 for the first time.
